

What is the IONIC ADSORPTION MICRO-FILTRATION SYSTEM?

This advanced technology was developed, refined and proven through diligent, investigative research and testing performed by water purification specialists, researchers and engineers.

Removal of contaminants with carbon is a surface phenomenon known as adsorption, resulting from the molecular attraction of substances to the surface of the carbon, as the source water is drawn through the filter and up the straw.

The rate of adsorption is determined by the quality and volume of carbon used. The filter has been calculated to yield the greatest volume removal of toxic chemicals caused by industrial and agricultural pollution.

This exclusive filter also incorporates proprietary adsorbing medias that are impregnated into the micro-porous filter for the IONIC adsorption of pollutants passing through the filter.

All materials FDA food grade approved.

90 DAY UNCONDITIONAL GUARANTEE

Manufacturer warrants the portable water filtration system to the consumer for the period of 90 days from the date of purchase, when used in accordance with manufacturer's instructions. If there are any defects with the product, return the unit, postage paid, to the distributor with a valid purchase receipt. This guarantee does not cover improper use, or maintenance, or premature clogging by overly turbid water. This warranty gives the consumer specific rights. Manufacturer shall under no circumstances be liable for any special indirect or consequential damages owing to misuse of goods. Manufacturer makes no warranty of fitness or merchant-ability and no other warranty, oral or written, expressed or implied except as specifically set forth therein.

OWNERS MANUAL

Stainless Steel Water Filtration System

This Portable Water Filtration System is our answer to today's need for health and self-preparedness. Your new straw filter system is THE most field and laboratory tested portable water filtration product in the WORLD!

The filter is designed with the exclusive Ionic Adsorption Micro-Filtration™ Technology producing a "filtering" capacity of up to 99.99% reduction of harmful contaminants for up to 100 gallons for just pennies a gallon!

That's a savings of over a \$700 at today's disposable bottled water costs.

There are 5 kinds of people that buy & use this product:

- 1- Those concerned about the taste, odor and quality of their drinking water.
- 2- Those who travel worldwide.
- 3- Those who pursue an active lifestyle.
- 4- Those who prepare for disasters.
- 5- Those who buy bottled water even though they pay up to \$5 per gallon & may question the source and quality.

Its The Perfect Traveling Companion...assures Safe quality drinking water when you are on the go and "Don't Trust the Water".

Active Lifestyles...whether hiking, biking, swimming, camping or fishing...provides safe quality drinking water from almost any source except salt.

Emergency Preparedness; when survival is threatened by floods, fires, earthquakes, hurricanes, tornadoes or terrorism – makes safe drinking water from sources such as swimming pools, flood waters & toilet tanks.

Replaces expensive and inconvenient Bottled Water. Now you can filter your water anytime, anywhere...with Guaranteed Quality.

Only the Exclusive Ionic-Adsorption Micro-Filtration™ system eliminates or reduces up to 99.99% of the:

Aesthetics: Unpleasant taste, odors, cloudiness, silt, sediment and chlorine...

Bacteriological: Harmful Bacteriological pathogens, Cryptosporidium, Giardia...

Chemicals: Toxic Chemicals, Arsenic, Trihalomethanes, PCB, PCE, Detergents, and Pesticides (DDT)

Dissolved Solids: Heavy Metals, Aluminum, Asbestos, Cadmium, Chromium 6, Copper, Lead, Mercury... **Radiologicals;** Radon 222.

Protect yourself and those you love...filter it at the point-of-use with your new Portable Water Filtration System...and be assured of receiving clean, great tasting, guaranteed quality water – on the spot!

CARE & USE

EXTREMELY IMPORTANT!

Remove bottle from box. Draw water through the straw. It may take a few draws at first to bring the water up until the filter is thoroughly wet. Use bottle at a 45 degree angle below your mouth. Use with confidence and enjoy!

DO NOT...Place the bottle in the freezer. (When water freezes, it expands and could damage the filter); **DO NOT** fill with HOT water, or anything other than WATER; **DO NOT** run the filter through the dishwasher. **NOT** for use with salt water!

Maintenance and Storage

When the bottle will not be used for an extended period, flush with chlorinated water, allow the filter to dry overnight then store indefinitely.

Exclusive filter is tested by EPA and State registered laboratories and meets and or exceeds EPA/ANSI protocols and NSF Standards 42 & 53.
